OBJETIVO

Full Stack Developer with a focus on Front-end, experienced in creating modern, responsive, and high-performance interfaces using **HTML, CSS, JavaScript, React, and Node.js**. I work as a freelancer developing websites, systems, and web solutions, prioritizing usability, performance, and best development practices.

Throughout my experience in digital transformation projects, I have acquired knowledge in **Generative AI, process automation, Local SEO, Google My Business, API integrations, and the development of solutions** aimed at optimizing operations and generating results for companies. I am seeking an opportunity to join a technology team where I can deepen my software development knowledge, contribute to impactful projects, and grow professionally alongside experienced developers.
